02/2026 – 06/2026 | Sfax, Tunisia

 - Developed a web platform for managing customer complaints and satisfaction.
 - Implemented features using Angular, Laravel, and Keycloak.
 - Created dashboards to monitor complaints and customer satisfaction.
- Python Intern, Primatéc

08/2024 – 08/2024 | Sfax, Tunisia

 - Developed Python scripts to automate repetitive technical tasks, contributing to debugging and testing activities.
 - Worked on optimization and error handling to improve script reliability.

Certificates & Participations

- AWS Academy Graduate – Cloud Foundations
- NVIDIA – Getting Started with Deep Learning
- Scrum Fundamentals Certified
- IBM Project Management Fundamentals
- DELF B2 Preparation Training Certificate – NAU
- Speaker — ATIC Bootcamp
- Organizer — Job Fair 10
- Participant — HACKVISION Hackathon
- Participant — Arduino Hackathon
- Participant — 3rd National Piano Festival

Projects

- OptiCust — Customer Complaint & Satisfaction Management Platform, Web Application | Angular · Laravel · Keycloak · Power BI

02/2026 – 06/2026

Developed a web platform for managing customer complaints and satisfaction, with tracking and data visualization features using Angular, Laravel, and Keycloak.
- Olive Oil Management & E-commerce Platform, Full-Stack Web Application | Next.js · NestJS · Prisma · PostgreSQL

Built a full-stack olive oil platform with an admin dashboard for products, inventory, and orders, and a customer website for browsing and online ordering, using NestJS, Prisma, and PostgreSQL.
- Order Management System, Microservices | Spring Boot · Eureka · Config Server · Gateway · MySQL

Developed a microservices application with Spring Boot for managing products, clients, and orders, using Eureka, API Gateway, and MySQL.
- Material Management System, Web Application | Laravel · Angular · MySQL

 - Developed a web application for managing materials and related data.
 - Implemented user interfaces and CRUD operations.
 - Worked on data management and validation using Laravel, Angular, and MySQL.
- Cookmate, Mobile Application | Flutter

-Developed a mobile recipe application using Flutter, focusing on user-friendly navigation and interaction.
- Spam Classification, Machine Learning & Text Processing | Python

-Developed a machine learning model for spam message classification using Python.

Skills

- Programming

Python · Java · C# · C++ · C · JavaScript · PHP · SQL · .NET
- Frontend Development

Angular · React · Next.js · HTML · CSS · Tailwind CSS
- Backend Development

Laravel · Node.js · NestJS · Spring Boot · REST APIs
- Databases

MySQL · PostgreSQL · Prisma
- Data & AI

Machine Learning · Data Analysis · Python
- Tools & DevOps

Git · GitHub · GitLab · Docker · Linux · Power BI · UML
- Mobile Development

Flutter

Languages

- Arabic
- French
- English
